THE TRIBUNE.

Col. Benton's last speech on Texas. AT BOONVILLE, Mo.

From Senator Benton's late Speeches at Boon-Texas question, we (x'ract s) much as relates may have time after the cessation of the obstacle more especially to that subject. Mr. B. says:

Disenion was a primary object of the treaty; an intrigue for the Presidency was its secondary object; land speculation, and stock joboing were surhary objects; and the four objects together brought it forward at the time, and in the manner in which it came forward, just forty days before the Baltimore Convention, and at the exact moment to mix with the Presidential Election, and to make dissension, discord and mischief between the North and the South. Mr. B. said he meant this for the prime movers and negothe treaty, and not for those who supported the treaty without participating in the lews of its makers. He had in various speeches Presidency; he had not shown the part which land speculation and stock jobbing acted in concocting the treaty, and pressing its ratificaat Washington City. The city was a buzzard most! the Presidential mansion and department of State, were buzzard roosts! defiled and notluted by the foul and voracious birds, in the shape of land speculators and stock jobbers, who saw their prey in the treaty, and spared no effort to Their own work was to support the treaty and its friends-to assail its opponents-to the Senators who were against it-to vilify them, and he upon them in speech and in writing and to establish a committee, still sitting at Washington, to promote and protect their interand confirmed all the land claims under the laws of Texas. The treaty correspondence claimed of which two thirds were represented as vecant, and claimed as a fund out of which the debt assamed was to be paid. Vain and impotent atempt at deception. Open and fraudulent attempt assume a bubble debt for the benefit of stock obers without any adequate consideration either

Texas in all its proper extent-in its whole length and bread in from the Sabine to the West of the Nucces, and from the Gulf of Mexico to the Red river-contains but 135,000 square miles, egrd to 84 millions of acres; and to get the remander of the of the quantity of 200 millions of ares they have to count the wild country under of which is under Mexican deminion, and a great or three different Governments, each of avidity for land is iosatiable. After all this, what is to enrich themselves.

Vacant land can there be in Texas? Not an acrewith having! so that the as umption of her debt by the treaty was gratintous, and without consideration.

And and solved that the whole Texas Treaty not to get Texas into the Union, but to get the Southern States out of it, and showed that the whole Treaty and the solved that the school solved that the school

And what a debt! created upon scrip and cer- all the correspondence relating to it, was studio And all this to go to the benefit, not even t scaled, and void grams of land annulled.

to expose the fraudulent statements in the treaty as a Territory by the supreme law of the land, σ correspondence, that only sixty-seven mill one of acres had been granted, Mr. B. produced and became a beacon of that supreme law, and many, exhibited to all present a large pampolet with a map attached to it, containing the claims of a single incividual, and all of which were asserted to be valid under the treaty. They were grants derived from the second of the Governments gress in 1842-43. He saw other signs of it in wmen had granted lands in Texas, to wit: the the summer of 1843; and by the end of the late States of Coahuda and Texas when united as one session of Congress the signs had become so State, which was their condition from 1820, when thick and clear that he was able to denounce it the Mexican Revolution broke out, to 1835, when on the floor of the Senate. His reply to Mr. Texastevel ed. The grams were made to a John McDuffie on Saturday, the 15th of June, was C. Besles, an Englishman, married to a Mexican women, or to Mexicans and purchased by him; and all obtained for little or no consideration—

to fulfit the terms.

Under these decisions, and the terms of the late treaty, all these grants, amounting to seventy | Hartford Convention from Nashville, and drive or eighty millions of acres, equal to three or four it to seek some other locality. such States as Kentucky, are claimed to be valid; and that claim would go to the same court which decided the Aredondo and the Clark claims, for the treaty annulled none. The Florida treaty of 1819 annulled the great grants to the Duke of Alagon, the Count Punon Rostro, and Don Diego Vargas, and they are not recognized by the courts; but it omitted to name the claims firmed by the Supreme Court of the United States, and it is notorious that members of Con exposed the d sunion scheme, and the intrigue for gress became rich upon the shares of these grants The grants, Mr. B. said, collected into the hands Are propured to execute Binding for BOOKSELLERS, PUBLIC LIBRARIES and private individuals.

N. B. Particular attention paid to rebinding Old Books, Periodicals, Music, &c., in good style and at reasonable rates. Persons visiting the city can have their books rebound at short notice. of Beales, stood upon the same footing with that of Aredondo. They were not annulled by the late Texan treaty. None were annulled by it.—All the grants were confirmed which were good under the laws of Texas; and the laws of Texas. so far as the right of property is concerned, are the laws of Spain and Mexico, and Coabuila and Texas, under which the right of property OT Hardware, Cuttery, &c.-LEWIS BENE-DIOT & CO, respectfully inform their friends and the public generally that they have removed to this city, 2 od have taken the Store SI Pearl-street, (opposite the Pearl-street House,)

> Mr. B. said the President's Message communicating the Treaty to the Senate, was as untrue in relation to the granted, and to the vacant lands in Texas, as it was in every other particular. Instead of two hundred millions of acres, there were only eighty-four millions of acres in Texas proper; the rest was the one-half in Taman ipas, Coahuila, Chihuahua and New Mexico, and had been granted away centuries ago; and the other half in the wild country of the Cumanches and the Sierra Obscura mountains, and must be fought for and bought from these Indians before it can be possessed, and will be then found to be covered by Beale's forty-five million acre grant. Instead of sixty-seven millions of acres granted, every inch of Texas proper, and all the Indian country besides, was granted away. Instead of one hundred and thirty millions of acres of vacant land, there was none vacant! for even the sterile mountains and barren prairies had been granted to speculators to sell to the United States and in Europe! and the assumption to pay the scrip debts of Texas, in consideration of the vacant lands, was a naked and fraudulent assump tion to pay ten millions for nothing! and that t cente, and seven cents in the dollar for the claims. and whose egents were at Washington infesting par ment of State, and doing ad that was in their the Senators who despited them and their serio.

The treaty was a fraud in pot annulling the great grants, made for considerations not futfilled, or three different Governments, each of it was a fraud in these particulars, but this fraud continuous and chambers are steed a voracious and chambrous interest for the aces, and 80 acre traces, but by sengurs lets or include and longitude, and by hun mustands and by millions or acres at a were, size themselves, accua caby laudable motives and brade is origitude and longitude, and by hondreds of thousands and by milli us or acres at a
time. The King's Government made grains
mere from 1720 to 1820; then the States of Cor
bulla and Texas, united as one State, made
grains from 1820 to 1835, when the Texas has
been grains from 1820 to 1835, when the Texas has

CITY HOTEL.

NATCHEZ, MISSISSIPPI.

THIS well known establishment has undergone a theromen remir and in now ready for the accommendation of the differents and patrons. It is situated on Main street, the principal one for business, and most configurate to the stemment landings. Its large and airy appartment decidedly gives it an indvantage over any other hotel in the city. The attendants are selected with particular care, and the lable and wines are not to be excelled by any other hotel in the outh western country. The subsorber, from his long experience, having conducted the St. Charles of New Orleans four years and the presant establishment three years, would ask his share of the public patronage, piedging himself that those who though missing the present establishment three years, would ask his share of the public patronage, piedging himself that those who though missing the present establishment.

Natchez, Miss, Aug. 10th, 1854.

GLOBE GLOCK STYRE.—J. R. MILLS & CO. Man

underturers of the YEAR GLOCKE would respectfully

not the attention of the rublicto the uncaralieled unprovement
and decaded advantages these Clocks have over all ther timekeners now in ms. They are warranted to run one year with
once winding and in keep good time, and are now for tale

at 105 Fulton wirest. New York.

The motions by predicared by wealths in the 20 day clocks, and
by a main spring wound upon a fixes in the year clock. The
power of the weight or spring is reinriched in this clock, and
node to retain regularity in its motion by the incentions are
minerism of the escinement and perfutium.

At the clock, you perceive my the perfutium, a hall inches in
demeter, a half one way, and the same number of times the
coulde lever movement, reaching to the escapement, which is
cutches and lenves without any sensible friction. The spring
then reacts upon the ball, indeed by its own gravity, and the rotary motion is continued, the ascensement controlling the percaimy, by which it retary motion is regulated. There are
four-small weights at that marks to content the content of t bert small weighisat richt angles to each other, two are mounted upon a wire, which is a high ground dimerer of the globe. The wire has on it the thread of a series, and each torn or it mediums an exact movement of the weights to ofform the centre, which can be regulated to the englist to ofform the centre, which can be regulated to the smallest fraction of time decrements of their weights are instead to a semi-carcular band common of which also changes their position without method. The whole interior arrangement ensures, in it believed, entire uniformity of method in the clobe.

It will at deve be seen that the friction of the common pendium is avoided. The revisitions of the ball are found by expendium of and observation to be incontrapal.

This clock is not put out of lent enaily—it requires so oil on the publish.

This clock is not put out of less easily—it requires so oil on the publics.

The revolutions of the swing whost are 60 times less or in other words is 60 years in making as many revolutions as the 39 inch or second pendutum clock does in one year. In fact a weight of 7 nounds keeps in motion each part of the time and striking machinery for 54 weeks.

The hours are strick by means of a rotary hammer. The certificates of the American institute—how that in May, 1841, one of the twelvemonth clocks was placed with them, and that it has performed in all respects as was expected.

The prices are moderate. The public are invited to call and examine for themselves.

examine for themselves.

SANDS'S SARSAPARILLA

FIVE DOLLARS A YEAR.

MEDICINES.

Screfula, or King's Fril, Rhenmatism, Obstinate Cutaneous Eruption, or Rings of the Rendermation, October Canada, Eruptions, Pempies, or Fustules on the Face, Blotches, Biles, Chronic Sore Eyes, Ring Worm or Tetter, Scald Head, Endargement and Pain of the Bones and Jonats, Stubborn Ulcers, Syphilitic Symp-toms, Sciatica, or Lumbago, and Diseases erising from an injudicious use of Mercury, Asciles, or Dropsy, Ex-paire or Imprudence in Life. Also, Chronic Consista-tional Disorders will

enjoy, and one which they might almost envy men the posses-non of, it is the power of relieving pain. How consoling, then, is the consciousness of having been the instrument of rescuing thousands from musery to those who possess it. What an amount of suffering has been relieved, and what a still greater amount of suffering can be prevented, by the use of Sands's Segmential. The unfortunate verting of herefutery disease. Sarsaparilla! The unfortunate victim of hereditary disease, with swollen glands, contracted sinews and bones half carrous, has been restored to health and vicor. The scrottplous patient, covered with ulces, loath-some to himself and to his autendants, has been made whose. Hundreds of persons, who had groaned has been made whole. Hundreds of persons, who had groaned hopelessly for years under cutaneous and glandular disorders, chronic rheumatism, and many other compliants springing from a derangement of the secretive organs and the circulation, have been raised as it were from the rack of disease, and now, with recenerated constitutions, gladly testife to the circulation.

be removed by this

Preparation.

mnecessary.

New-York, July 25, 1844.

Mgssrs, Sands;—Gent.—I consider it but an act of justice to you to sinte the following facts in reference to the great benefit have received, in the cure of an obstinate cancerous ULCER on my breast.

I was attended eighteen months by a regular and skilful Physician, assisted by the advice and counsel of one of our most side and experienced Surgious without the least benefit whatever. All the various methods of frating cancer were resofted to; for five weees in succession my breast was burned with a weak solution of intricated, and the enviry or interest.

next door to the Methodist Church.

The following extract from a letter just come to hand will be read with interest. The patient has had Feer Sores for pens on his legs, and could find no robef until he used Sands Sansacatile.

years on his legs, and could find no robef until he used Sands' Surgnarias.—It has once more become my duty to communicate to you the situation of Mr. Harms, and you may rely upon it! do so with the utimest pleasure. Mr. Harms says that four of his sores are entirely hended up, and the remainder are fast doing so ;—he further says he has no pain in the affected inho whitever—that his sleep is of the most refreshing nature, and his health in every o spect very much improved—an visible is the change, that all who soe has exclaim "what a change!" and earnestly inquire what he has been doing? He has gaused in flesh very much, and is able to work at his trade, (which is that of a shasemaker) without any inconvenience. This is the substance of his narrative; but the justicue! Cannot in any we here do justice to. The manner, the grantaude, the fanta, and the exhalmating effect upon his spirits, you can but hantly imgine. He requests me to say he will come and see you as give. to alleviate the miseries of the human family, is the ferve prayer of your sincere friend, HUMPHREY ALMY, Justice of the Peace. Brooklyn, Conn. July 10, 1844.

Meson, Sands-Gent: Most cheerfully de la 10, 1844, Messer, SANDS—UNIT: Most cheerfully do I add to the numorous testimonials of your life preservative Saysagarsila. It
was attacked in the year ISS with actrofulous affection on my
upper lip, and continuing upward his ing hold of my nose and
surrounding parts, until the preserges for conveying tears from
the eyes to the nose were destroyed, which mused an unceasing flow of 15sts. It also affected my gime, counting and
charge very unpiessent, and my teeth become so loses that it
would not have been a hard task to pull them ont with a slight
jerk—usch were my feelings and suffering at this time that. I
was rendered perfectly investable. I consulted the first Physemins in the Cats, but with first benefit. Every thing I heard
was treed, but nil proved of no service, and as a last reson
was recommended change of air; buttins, like other remedies,
did no good, the disease continued gradually to increase until
my whole bedy was affected. But thanks to humanity, my
Physician recommended your preparation of Saraparilla. I
procured from your agent in the City, Dr. James A. Reed, 6
bottles, and in loss time than three months was restored to
health and happiness. Your Saraparilla alone effected the
lout use the right medicine and be free from disease, with feelluit use the right medicine and be free from disease, with feelluit use the right effective and be free from disease, with feelluit use the right effective and be free from disease, with feeling of your description.

but use the right medicine and be free from disease, with feeling of joy and gratitude I remain your friend.

THE CHEMICAL PREPARATIONS OF DR. GOUhaps no man of science has been more completely vicinized
by empires than Dr. G. No sooner does his skill chiborate
some article calculated to assuage the pain of a deformity,
than it is instantly pounced upon by the ignorant and volcar,
who institute it in every point—excepting its virtues. The univery are therefore cautioned against purchasing any of the following articles, except at Dr. Gourand's only New York Depot. EV wiker street, first store from Bondway.

THOMPSON'S TRUSSES. Office No. 12
Beckman street. About 324 of the first physicians and surgeons of New York have giver their decided preference to this Truss, as you can graduate the pressure from one to fifty pound on the rupture, without a back paid, which does so much injury to the spine. A fair trail being the best test of its superiority it is applied and six days' trail given, and it does not retain the rupture, without a back paid, which does so much injury to the spine. A fair trail being the best test of its superiority it is applied and six days' trail given, and it does not retain the rupture, while performing every kind of exercise or cough ingr, and give perfect case; in a word, if it is not satisfactory in every respect, the money is cheerfully returned, and this it the only condition on which you should buy any Truss. A per mannent currer causily effected, and warranted, if directionear followed.

Those sending for this Truss need only mention the did ruptured and the measure round the hips, as they can graduate the pressure to suit their case. Sold wholesale and retail at II Beckman street.
